- Travel
- New gadgets
- Gaming

Md Afsar Ansari

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer proficient in JavaScript and the MERN stack, skilled in developing scalable web applications and frontend components using React.js. Strong problem-solving abilities and efficient at utilizing Generative AI. Quick to learn new technologies for enhancing development processes in collaborative settings.

WORK EXPERIENCE

Karkhana

FrontEnd Intern | July 2024 - September 2024

Job responsibilities:

- Optimized website performance by reducing load times through efficient code refactoring and resource management, enhancing user experience substantially.
- Improved mobile responsiveness ensuring Kkonnnect's interface was visually appealing and fully functional across various screen sizes, leading to increased user engagement.
- Collaborated with cross-functional teams to address and solve mobile performance issues, successfully improving page load speed and navigation on mobile devices.

PROJECTS

1. SkinStore | 🌐 | 🧑

JavaScript | React | Redux | Git | Node.js | CSS3 | HTML5 | RESTful APIs |
MongoDB | Express.js | Responsive Web Design

- Developed using the full MERN stack enhancing both backend and frontend skills.
- Implemented secure authentication with OTP for robust user verification.
- Designed RESTful APIs ensuring efficient client-server communication.
- Employed Redux for managing complex state in web application.

2. Animoto Website Cloning | 🌐 | 🧑

JavaScript | React | Git | HTML5 | CSS3 | Responsive Web Design

- Developed client-side of the application using React.js, HTML5, and CSS3, ensuring responsive design and smooth user interface.
- Utilized Context API for efficient state management across the application.
- Implemented Firebase to store and retrieve user data, ensuring seamless data handling and security.
- Created an online video maker feature, allowing users to create, edit, and share videos effortlessly.
