Md Afsar Ansari

Full Stack Web Developer

PROFESSIONAL SUMMARY

Accomplished Full Stack Web Developer skilled in MERN stack, including Node.js, Express.js, React.js, and MongoDB. Exceptional problem-solving abilities and detail-oriented. Adept at leveraging Generative AI and quickly mastering new technologies. Excellent collaboration and communication skills for team success.

WORK EXPERIENCE

Karkhana

FrontEnd Intern | July 2024 - September 2024

Job responsibilities:

- Optimized website performance on the Kkonnnect homepage, reducing load times through efficient code refactoring and resource management.
- Improved mobile responsiveness, ensuring that Kkonnnect's interface was fully functional and visually appealing on various screen sizes.
- Collaborated with cross-functional teams to address mobile performance issues, improving page load speed and navigation on mobile devices.

PROJECTS

1. SkinStore | |

JavaScript | React | Redux | Git | Node.js | CSS3 | HTML5 |
RESTful APIs | MongoDB | Express.js |

Responsive Web Design

- Developed an advanced e-commerce website clone with full frontend and backend integration.
- Implemented secure user authentication and OTP verification using JWT and Node.js.
- Utilized the MERN stack to create seamless product browsing and cart functionality.
- Designed a responsive user interface with React.js, ensuring a seamless shopping experience.

2. Animoto Website Cloning | |

JavaScript | React | Git | HTML5 | CSS3 |

Responsive Web Design

- Implemented a comprehensive educational project focused on web development skills.
- Cloned core features and design elements of the Animoto website using React.js.
- Utilized Firebase for efficient data storage and retrieval, enhancing user experience.
- Applied Context API for effective state management across the application.
