md Afsar Ansari

Frontend Developer(React)

Professional Summary

Confident developer adept at scheduling, Developer with a proven adapt in both self-starting and collaborative environments, Focused and keeping track of quality of results within the strict deadlines. Eager to obtain challenging position that will expand my learning and build upon my developer skills.

Projects

Animoto website Cloning	Live Demo Link	Github Repo Link
-------------------------	--------------------------------	----------------------------------

- Developed a clone of Animoto website using React and Chakra UI
- Implemented features to create, edit, and share videos online
- Utilized Firebase for storing and retrieving user data
- Implemented authentication using Firebase Auth
- Used Context API for state management

Botnia cloning	Live Demo Link	Github Repo Link
----------------	--------------------------------	----------------------------------

- Designed an online shopping website with responsive design
- Created an admin page for adding products
- Developed an API to store user data
- Implemented carousel features in the website
- Worked on both frontend and backend aspects of the project

ShopEasy cloning	Live Demo Link	Github Repo Link
------------------	--------------------------------	----------------------------------

- Cloned the popular e-commerce website ShopEasy using React.js and related technologies.
- Developed a visually appealing user interface that closely resembled the original website.
- Implemented responsive designs to ensure optimal performance on various devices and browsers.
- Integrated frontend components with server-side APIs to fetch and display product information.
- Optimized the web application for speed, performance, and scalability.
- Conducted thorough testing and debugging to ensure the reliability and stability of the application.
- Stayed up-to-date with the latest frontend development trends and best practices.
- Collaborated with a backend developer to integrate frontend components with server-side logic.
